

RETAIL STRATEGY & ANALYTICS

Chips Category & Trial Store Evaluation

Quantium Virtual Internship

Prepared by **Praveen Patil**
2026

PRESENTATION OVERVIEW & OBJECTIVE

BUSINESS OBJECTIVE

Analyse customer purchasing behaviour to identify growth opportunities and evaluate the impact of the store trial program, determining whether a broader rollout should be recommended.

01 — CUSTOMER & CATEGORY INSIGHTS

Identify key customer segments and growth opportunities.

02 — CUSTOMER BEHAVIOUR & PRODUCT AFFINITY

Understand purchasing behaviour, premium opportunities, and product preferences.

03 — TRIAL STORE EVALUATION

Evaluate the sales and customer impact of trial Stores 77, 86, and 88.

04 — FINAL RECOMMENDATION

Summarise trial outcomes and recommend the next steps.

EXECUTIVE SUMMARY

Key findings from customer and trial-store analysis

The analysis identified clear customer opportunities, while the store trial delivered positive results in Stores 77 and 86 but not in Store 88.

CUSTOMER OPPORTUNITY

Older Families (Budget)

Highest total sales and highest average purchase quantity.

PREMIUM OPPORTUNITY

Young Singles/Couples (Mainstream)

Highest average price per unit and strong product affinity.

TRIAL OUTCOME

2 of 3 Stores Positive

Stores 77 & 86: **Positive**

Store 88: Mixed / Requires Investigation

RECOMMENDATION

Pursue a targeted rollout based on successful trial stores, while investigating Store 88 before wider expansion.

CUSTOMER & CATEGORY INSIGHTS

Understanding the key customer segments driving chip sales

KEY INSIGHTS

01 — Older Families (Budget)

Highest total sales contribution.

02 — Young Singles/Couples (Mainstream)

Major contributor to category revenue.

03 — Retirees (Mainstream)

Another important contributor to total sales.

BUSINESS IMPLICATION

Prioritise high-volume family demand while developing premium opportunities within valuable mainstream customers.

CUSTOMER BEHAVIOUR & PREMIUM OPPORTUNITY

Identifying high-volume and high-value customers

KEY TAKEAWAY

Older Families (Mainstream) purchase the highest number of units per customer.

KEY TAKEAWAY

Young Singles/Couples (Mainstream) have the highest average price per unit.

BUSINESS OPPORTUNITY

Target volume through family-focused offerings while using premium products to capture higher-value spending from Young Singles/Couples.

PRODUCT AFFINITY & PROMOTION OPPORTUNITIES

Preferred brands and pack sizes among key customers

Focus segment: Young Singles/Couples (Mainstream)

Top 10 Brand Affinity

Top 10 Pack Size Affinity

BUSINESS OPPORTUNITY

Increase visibility and promotional placement of high-affinity brands and pack sizes among Young Singles/Couples (Mainstream)

TRIAL STORE 77 - SALES IMPACT

Evaluating trial performance against the scaled control store

Store 77 Trial Sales vs Scaled Control Store 233

BUSINESS IMPLICATION

Store 77 demonstrates a positive trial outcome, supporting consideration for a broader rollout.

KEY FINDINGS

01 — Significant Sales Impact

Store 77 showed a statistically significant sales impact during the trial period.

02 — Positive Performance

Trial sales exceeded the scaled control benchmark in March and April, indicating a positive trial impact.

03 — Strongest Impact

The largest positive difference occurred in **April 2019**.

TRIAL STORE 86 — SALES & CUSTOMER IMPACT

Evaluating trial performance against the control store

BUSINESS IMPLICATION

Store 86 demonstrates strong trial performance, supporting consideration for broader rollout.

KEY FINDINGS

01 — Significant Sales Impact

Store 86 showed a statistically significant sales impact.

02 — Customer Impact

Customer numbers were significantly higher during the trial.

03 — Overall Result

Store 86 delivered a positive trial outcome.

TRIAL STORE 88 — SALES & CUSTOMER IMPACT

Evaluating trial performance against the control store

BUSINESS IMPLICATION

Store 88 had a strong pre-trial sales baseline, so trial-period performance should be evaluated against the established control-adjusted benchmark.

KEY FINDINGS

01 — Strong Sales Baseline

Store 88 consistently recorded higher monthly sales than Control Store 178 during the pre-trial period.

02 — Higher Starting Performance

Trial Store 88 operated at a substantially higher sales level than the control store before the trial.

03 — Baseline Established

The pre-trial trend provides the benchmark for evaluating Store 88's trial-period performance.

CUSTOMER PERFORMANCE — TRIAL STORE 88

Comparing customer trends with the control store

BUSINESS IMPLICATION

Store 88 had a stronger customer base than the control store , so trial-period performance should be evaluated against the established control-adjusted customer benchmark.

KEY FINDINGS

01 — Strong Customer Base

Store 88 consistently maintained higher customer activity than the control store.

02 — Consistent Activity

Customer levels remained relatively stable throughout the pre-trial period.

03 — Higher Baseline

Store 88 maintained a higher customer base than Store 178, establishing a strong starting benchmark

TRIAL STORE 88 — SALES IMPACT

Evaluating trial performance against the scaled control store

BUSINESS IMPLICATION

Store 88 showed an initial positive sales response, but the impact was not sustained through the full trial period. Further investigation is recommended before wider rollout.

KEY FINDINGS

01 — Initial Positive Sales Impact

Store 88 exceeded the scaled control benchmark during the initial trial period, indicating an early positive sales response.

02 — Strongest Performance

The largest positive difference occurred during the early trial period, particularly in February 2019.

03 — Mixed Trial Performance

Store 88 exceeded the scaled control benchmark in February 2019, but sales fell below the benchmark in March and April, indicating an inconsistent trial impact.

CUSTOMER PERFORMANCE — TRIAL STORE 88

Comparing customer trends with the scaled control store

KEY FINDINGS

01 — Strong Customer Growth

Store 88 increased customer activity above the scaled control benchmark during March and April 2019.

02 — Significant Improvement

Customer performance was substantially higher than the control benchmark in March and April, indicating a strong positive customer impact.

03 — Initial Alignment

Customer levels were closely aligned with the control in February before Store 88 showed a clear improvement in the following months.

BUSINESS IMPLICATION

Store 88 demonstrated a positive customer response during the trial period, particularly in March and April, supporting further evaluation of the trial approach.

CUSTOMER PERFORMANCE — TRIAL STORE 77

Comparing customer trends with the control store

BUSINESS IMPLICATION

Store 77 had a comparable pre-trial customer base, providing a reliable benchmark for evaluating changes in customer activity during the trial period.

KEY FINDINGS

01 — Comparable Starting Point

Store 77 and Control Store 233 showed similar customer levels during the pre-trial period.

02 — Similar Customer Trend

Customer activity followed a broadly similar pattern across both stores from July 2018 to January 2019.

03 — Baseline Established

The pre-trial customer trend provides a suitable baseline for evaluating Store 77's trial-period customer performance.

FINAL TRIAL RESULTS & RECOMMENDATION

Summary of trial store performance and recommended next steps

Trial Store	Sales Impact	Customer Impact	Overall Result
Store 77	Positive	Positive	✓ Successful
Store 86	Positive	Positive	✓ Successful
Store 88	Mixed / Negative	Positive but inconsistent	⚠ Investigate

KEY

RECOMMENDATION

- Proceed with a targeted rollout based on the successful results from Stores 77 and 86.
- Further investigate Store 88 before considering wider implementation.

2 out of 3 trial stores demonstrated positive results, providing evidence to support a targeted expansion strategy.

CONCLUSION

The analysis identified valuable customer opportunities and demonstrated positive trial results in Stores 77 and 86. These results support a targeted rollout strategy, while Store 88 requires further investigation before wider implementation.

Key Takeaways

01 — Customer Opportunity

Focus on high-value and high-volume customer segments.

02 — Successful Trial Stores

Stores **77 and 86** delivered positive trial outcomes.

03 — Recommended Action

Proceed with a targeted rollout and investigate Store **88** before expansion.

Key Takeaway

Data-driven insights support a targeted and strategic business expansion.
